Playball!

Fee - \$128 Materials - \$10 (t-shirt, trophy)

Grades - K - 1st Time - 3:30 - 4:30 Number - Min. 8, Max. 10

Dates - Jan. 8, 22, 29, Feb. 5, 12, 26, March 5, 12

Taught by - **Maxy Mirkin** (Make-Up March 26)

Playball is an early childhood sports program with creative, high-energy lessons that are derived from 8 major sports. Is your Kindergarten-1st grade student interested in soccer, baseball, tennis, basketball, football, golf, rugby, or hockey? Give them the skills and the confidence they need to play their favorite games, including how to smash a volleyball or throw and kick a football! Every class is a discovery of new abilities and includes three important components of movement: locomotion, stability, and manipulation of equipment. These building blocks are at the core of every synchronizing move we make, so teaching them properly in a stimulating way helps children learn quickly and easily. We use child-sized soccer balls,

footballs, basketballs, tennis rackets, and hockey sticks to teach kicks, passes, shots on goal, techniques, and grip. We also bring balance beams, hurdles, hoops, and cones to create obstacle courses and tricky sport sequences. Lessons are a blast as we sing songs and use wild imagery to help remember our techniques. Join the team today so we can learn, practice, and play; it's the Playball way!

Coach Maxy is the proud head coach and owner of Playball Asheville. Her experience and certifications in the child psychology and exercise science field are many, but for her it's the pure joy of teaching children and seeing that SPARK that makes being a Playball coach the best job in the world! Her studies in Florida and travels to New Zealand led her to work with early childhood literacy, cerebellar delays, and exercise science interventions and her love of sports and movement is what prompted starting Playball in WNC. It has been an incredible 7 years in Asheville, watching the children of Playball become little athletes, bursting with confidence on the field and in the classroom, thanks to their commitment to play!

MONDAYS

Entrepreneur Club!

Fee - \$96 Materials - \$15 Grades - 3rd - 5th
Time - 4:00 to 5:00 Number -Min. none, Max. - 6
Dates- Jan. 8, 22, 29, Feb. 5, 12, 26, March 5, 12
(Make-Up March 26)

Led by - **Adelyn Hanf & Layne Solinas**
with help from some adult friends!

The first week club members will decide what we want to sell, make lists for gathering or buying materials and start to make business plans. We will figure out costs for our products and how much we can sell them for. This is called our profit!!

The next week we will work on our business cards and plans. If there is time everyone will begin to fabricate (make) our products to sell!!

The next few weeks we will work to finish all of our items and decide how we should advertise. Once everybody is finished creating, we will begin to sell our products. The way we will sell is to bring blankets or take fold up tables to the sidewalk and all the kids would have their own little station to sell their products. We will sell our amazing products for several weeks. The last club we will talk about what worked well, what we could improve on and if we feel that our product was a success.

Kids will keep all of their earnings (minus the materials cost if any), leftover products and business cards.

Hi. My name is **Adelyn**. I've been at Rainbow since 1st grade. I am in 4th grade and am 9 years old. I like basketball, reading and drawing. My best friend's name is Layne.

Hi. My name is **Layne**. I've been at Rainbow since 1st grade. I love basketball, baking and drawing. My best friend's name is Adelyn.

We want to do Entrepreneur Club because we like creating our own businesses.

We are so excited to see who joins!

Rainbow's End After School is proud to support the ideas and proposals for clubs from our talented and inspired students. We have 2 clubs this session created by our kids!!

Number -Min. 8, Max. - 16
Taught by - Sophie Baker

Calling all LEGO enthusiasts!!!! Join Bricks 4 Kidz After School and make awesome motorized LEGO machines each week, like moving cars, amusement park rides and Star Wars ships!

Students will use our proprietary LEGO technic kits, model plans and motors to make real, moving machines. Students will also build with many other STEM based engineering materials like Brain Flakes, K'Nex, Zoobs, Magnatiles, and lots of other LEGO materials! Kids also get to enjoy free play exploration time at the end of each class.

*We don't simply play with Lego® parts and pieces,
we build motorized, working models from scratch!*

Instructor: Sophie Baker

"I'm a college student who spends her free time building with Legos! I even used to work at The Lego Store! My current project is to build a coral reef in an aquarium. I enjoy teaching and one of my favorite things is to watch someone figure out the problem they were having after just a hint."

Creative Movement, Improvisation, & Choreography Club

Fee - \$96 Grades - 3rd - 8th Time - 3:45 - 4:45

Dates - Jan. 9, 16, 23, 30, Feb. 6, 13, 20, 27 (Make-Up March 6)

Number - Min. 5, Max. - 20 Taught by - [Melissa Scott](#)

Bring your originality and imagination to Creative Movement, Improvisation, & Choreography Club! We will start with ways to creatively respond to music with movement and improvisation, and then flow into crafting movement into choreography. Throughout this club, we will think about how movement can communicate our ideas and feelings, as well as just.....

move for the joy of movement's sake!

Hi, everyone! I'm [Melissa Scott](#) and I teach 3rd grade at Rainbow. I'm happy to share my love for dance, creative movement, and choreography with you! I started dancing when I was 4 years old and have experience with ballet, tap, jazz, modern, hip hop, and African dance. I love the connection between music and movement and how movement gives us a way to express ourselves. I also love shaping movement into choreography and I've choreographed dance for various groups of people, including classes here at Rainbow for our Imagine and Winter Show performances!

Taught by - [Phil Ferguson](#) www.wanderingswordsman.com

Join Asheville's Boofing community and learn swordplay skills, honor, self-discipline and teamwork! Teaching kids to engage in combat with compassion is a great key to enrich their lives and create a world where people handle conflict healthily and cooperatively. Whether you're guarding your team's base in capture the flag, sieging the castle walls, or running from shambling zombies, there's a place for everyone and your teammates want your help!

The Wandering Swordsmen LLC is devoted to the facilitation and development of the sport of boffer. Boffer weapons are padded implements designed to resemble medieval weaponry, including swords, shields, bows, arrows, spears and more. All gear is built to strict safety specs provided by Belegarth. Low Contact rules are used for kids under 15.

[Phil Ferguson](#), *The Wandering Swordsman*, started the Asheville Boofing community in 2011. Phil teaches at schools, festivals, weekly games at Carrier Park on Sundays and travels to national events to compete. His goal is to travel the world to help professionalize the sport, while using his training methods to teach people how to engage in compassionate combat and help humanity learn how to resolve conflict more effectively.

Stories, Myth and Yogic Adventures!

Fees - \$96 Materials - \$15

Time -2:00-3:00 Grades- 1st - 4th Number -Min. 8, Max.- 16

Dates -Jan. 10, 17, 24, 31, Feb. 7,14, 21, 28,
(make-up March 7)

Taught by - [Raphaela Fritz](#)

Join Rainbow parent
Raphaela Fritz in a
journey inspired by
storytelling and

myths. Each week we will explore a tale and learn how to embody the wisdom and teachings of the story into our lives through yoga, breath work and relaxation. Inspiring stories filled with elephant headed and playful monkey gods, beautiful warrior goddesses, dragons, and all powerful gods of craziness. Each of these characters teach and remind us, through story, about courage, love, beauty, service, the removal of obstacles, fear, and standing up for a what it takes to strive toward goodness, even in the most challenging of times. We will learn and play with balancing and standing poses, back and forward bends, twists, handstands, and yoga with a friend's help. Please join us if you love fun, adventure, moving your body in ridiculous ways, and amazing stories.

[Inspiration from....elephant headed gods, playful monkey gods, beautiful warrior goddesses, dragons and all powerful gods of craziness!](#)

This is [Raphaela Fritz's](#) fifth year as a parent of two at Rainbow; Lucien in 3rd grade and Navarra in Preschool. She is a mother, massage therapist, healer, and avid practitioner, student, and teacher of yoga. She is the co-founder and visionary of [Nectar Healing Arts](#) which is nestled just 2 doors down from RCS, above West Asheville Yoga. This will be her second year working with children in the amazing after school program at Rainbow, and she is looking forward to sharing this embodied storytelling journey with your kids. www.nectarme.com

Taught by -Diane Strazzer

Cooking club is a fun exploration of culinary techniques and flavors from around the world. We will build skills such as knife safety and body-awareness in the kitchen while broadening our food vocabulary with the hopes that you will get to share your awesome new cooking skills with your folks. We will make delicious food that we will enjoy when finished. Some of the things we will make include handmade aprons, quesadillas, guacamole, salsa and macaroons. ***YUM! YUM!*** All food sensitivities and needs of participants will be considered. Please write these specifics on your enrollment form.

*Diane loves to make a big ol mess in the kitchen
and try new fun foods!!*

Diane Strazzer has a Master's Teaching from WCU. She has taught art for over 7 years and currently teaches at the Franklin School of Innovation. She taught ZestQuest a healthy food/lifestyle curriculum in Waynesville elementary schools. Diane is married to your very own Coach Mark! She has worked in four organic gardens (including Bountiful Cities, Falconhurst, the John C Campbell and Yogaville) and loves making food from there. Her favorite cuisine is Indian.

Diane's very favorite food is pineapple and the first time she bit into a fresh one in Africa she cried because it was so amazingly tasty!

THURSDAYS

Number - Max - 12 (Make-Up March 15)

Taught by - John Bickart

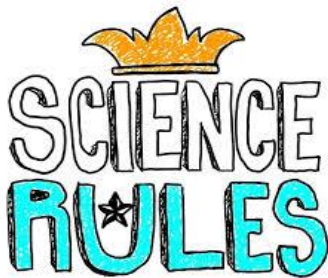

Science Club will offer students the chance to either explore various materials or create a science project.

Possible Projects are:

- ❖ melting, bending & blowing small glass tubing
- ❖ woodcarving
- ❖ student-designed projects
- ❖ some chemical reactions
- ❖ pendulum experiments
- ❖ string designs
- ❖ scientist's notebook entries
- ❖ the bed of nails!!

***I love the hands
on approach to
learning science!***

When students play around with natural materials they walk in the path of real scientists. I consider myself a lifelong scientist; learning by playing with wood and fire, mainly. That's why some of my favorite hobbies are woodcarving, hiking and teaching science.

Teachers & students know what they want!

We empower ourselves when we listen to our hearts.

I have been a teacher/professional workshop instructor for over 40 years, working with both adult and child populations. I believe in helping a student go through personal transformation above learning information. Professional offerings include higher education pre-service teacher preparation, leading teacher workshops, teaching middle/high school science and math (including youth at risk), science topics for adults...including incarcerated individuals and educational software.

*"Now here's a tale straight out of the mountains!
One that'll get your
ears a'flappin' and your toes a'tappin'!"*

We all know the story of Jack & the Beanstalk -- but did you know people have been sharing Jack Tales for over 600 years? It's true! Historians believe that Jack existed in spoken stories long before he was ever captured on paper. Tales eventually made their way from England to the Appalachian region, were adapted to fit the culture and became part of a rich oral tradition. Settings may have changed, but the stories remain the same. This musical is set in fictional Sweetwater Holler of the very real and fascinating Appalachian Mountains.

Main Cast

Mondays AND Fridays - 4th-8th grades, min. 7, max. 10

This group is an animated bunch of big, bold characters! These roles have the most lines and stage time. If you are ready to dedicate yourself to making this show great, this club is for you!

Ensemble

Mondays - 1st-8th grades, min. 7, max. 10

This group of characters is a lively bunch who like to sing! These roles have few lines, lots of fun & are so important to our story!
