CORE DESIGN PRINCIPLES: The guiding principles that inform the design of our school based on our values.

- 1 **Holistic thinking:** We develop the whole person, specifically in the Seven Domains: (1) physical (2) natural (3) social (4) emotional (5) creative, (6) mental (7) spiritual.
- 2 **Relationships** in all four connections (*self, others, nature, purpose*) are founded on love and guided by attunement.
- 3 **Diversity:** We are a diverse community that balances the freedom of individuality and the strength of interdependence.
- 4 **Lifeworthy* learning** is student-centered, dynamic, and balanced between the 3A's: academics, action, and aesthetics/affective learning.
- 5 **Assessment** of ourselves, our teams, and our organization is multi-faceted, dynamic, and student-centered.
- 6 **Self-organizing, Sociocratic principles** make everyone a leader and create an organization that is strong and adaptable.
- 7 **Conflict and problems** are opportunities for change-making and transformation.
- 8 **Working toward mastery** is more than a goal; it is a way of life.
